Changing Webhooks, Emails, and Toggles

Instructions to edit destinations and enable/disable alert routing.

1. Modifying Webhooks & Email Destinations

Open the `.env` file in your workspace root:

- Change Discord destination: edit `DISCORD_WEBHOOK_URL`
- Change Teams destination: edit `TEAMS_WEBHOOK_URL`
- Change Email destination: edit `EMAIL_USER`

2. Enabling/Disabling Alert Routes

To enable/disable routing, change the toggles in `.env` to `true` or `false`:

- **Mail**: `ENABLE_MAIL=false`
- **Discord**: `ENABLE_DISCORD=false`
- **Teams**: `ENABLE_TEAMS=false`
