

Start Stop Procedures

Project Category: B1AI DEVOP1

Author: Roni Fernandes Dias / François LANGE

Date: June 24, 2026

Table of Contents

1. Complete Stack Startup	3
2. Complete Stack Shutdown	3
3. Restarting Specific Services	3

Start & Stop Procedures

Commands to initiate and shutdown each component in the environment.

1. Complete Stack Startup

Run the daemon containers in the background:
`docker compose up -d`

2. Complete Stack Shutdown

Stop and remove all running container resource configurations:
`docker compose down`

3. Restarting Specific Services

`docker compose restart backend`
`docker compose restart db`
